

147 AED cabinets

Modern Metal Products

Modern Metal Products has been manufacturing cabinets in Owatonna Minnesota for over 85 years. We began our cabinet line with the fire extinguisher cabinet and have since started making many different sizes and styles of AED cabinets. MMP proudly stand by all of our quality manufactured cabinets.

147 AED Cabinet

The 147 series AED cabinets is a solidly built cabinet. It is large enough for most AED yet maintains its small size.

- Made from 20 gage corrosive resistant steel. Stainless steel is available.
- Size is 13-1/2" x 13" x 7".
- Powder painted white to ensure a nice looking durable finish.
- Only requires one pull to open.
- Three trim styles to choose from:
 - Surfaces mount.
 - Recessed (ADA compliant)
 - Semi-recessed (ADA compliant)
- Choice of 3 features:
 - Cabinet only.
 - Cabinet with alarm.
 - Cabinet with alarm and strobe.
- Modern Metal Products AED cabinets only use MMP's 200900 alarm. This is the most versatile alarm in the industry. This alarm offers the most standard features of any AED alarm on the market.
